SUMMARY

A second-year Computing (Software Engineering) student at the National Institute of Business Management (NIBM). passionate about teaching and explaining difficult concepts in simple terms. With a strong foundational knowledge in problem-solving and critical thinking when it comes to programming, I look forward to assisting my fellow students in developing the skills they need to succeed academically and professionally. Additionally, I am committed to adapting my approach based on individual skill levels, ensuring that all students receive the necessary amount of attention they deserve.

EXPERIENCE

2021 - Present

Ordinary Level Tutor (Self-Employed)

I continue to work as a self-employed tutor with experience in teaching ordinary-level (Edexcel syllabus) subjects, such as Mathematics, ICT, and Computer Science. I have created a friendly environment for O/L students in which I encourage them to develop their problem-solving and critical-thinking abilities. In my experience being a tutor, I have worked with students of varying skill levels, language barriers and disabilities. I have received a lot of positive feedback from both students and parents.
